Given the large Spanish-speaking population in the Las Vegas area, the need for current and future health care professionals to speak Spanish has never been greater. Studies show that when providers speak some Spanish, the patient-provider relationship improves, patient compliance is better, outcomes are better, and patient satisfaction is better. Knowing Spanish will help you provide better care to Spanish-speaking patients and bolster your resume if you are seeking employment or applying to graduate, professional, or medical school. ### Spanish for Health Care Professionals I

This course is for current and future health care providers new to Spanish who want to interact in Spanish with patients. The focus is on oral communication and listening strategies, to quickly develop your ability to speak and understand Spanish in a health care setting. It presents general medical vocabulary, beginning grammar structures, pronunciation, communication strategies, and cross-cultural issues.

Deborah Arteaga, Ph.D, CMI, CHI™

TTh | Feb 11-Mar 12, 2020 (meets 10x)
6-8pm | $240
UNLV Paradise Campus | 201LA1178

### Spanish for Health Care Professionals II

This course is designed for current and future health care providers with an intermediate level of Spanish who want to interact in more depth in Spanish with patients, by improving their fluency. The focus is on oral communication and listening strategies, to further develop your ability to speak and understand Spanish in a health care setting. It presents more specialized medical vocabulary, grammar structures, pronunciation, communication strategies, and cross-cultural issues.
