Aries Cyrus-Sims has a passion for helping people. Growing up in Lansing, Michigan she was always seeking out volunteer opportunities and found great support from her philanthropic-focused family. She strove to make an impact on the lives of individuals. But how could she turn that passion into a career?

In 2007 Aries moved to Las Vegas to support her local pastor and his wife as they opened a sister church. Helping people was still her focus, but she also had to support herself with careers in the retail and hospitality industries. It was not until a friend recommended she get her foot in the door with a nonprofit company that Aries began to combine her passion with her career goals. She realized she needed to learn more about the business side of the nonprofit industry.

Aries researched her best options and in doing so she attended an introductory course at UNLV Continuing Education called *An Introduction to the Nonprofit Sector*. She quickly realized the comprehensive nonprofit certificate would open all sorts of new doors for her. She signed up for the classes and never looked back. It took Aries about a year to complete the certificate program.

Almost a year into her new journey, Aries is able to meld her passion with her career. She is supporting community members as they help themselves and each other.

**New! BUSINESS & PEOPLE MANAGEMENT MODULE**

This module will provide you with the most up to date information about managing and leading people. Participants will learn principles of people management and how to apply them to their business or team. Specific topics will include managing conflict, leading through change, and methods for conflict resolution. Completing this module will provide participants with tools and techniques they can immediately apply to their workplace.

This module includes four classes each taught by an experienced faculty member or local business leader:

- **Leadership:** In today's business environment, marked by rapid change and hyper-competition, effective leadership often makes the difference between success and failure. Students will examine the different roles and characteristics of a leader, as well as the impact of leadership on an organization. Students will also examine their own leadership skills and identify ways to develop their personal style.

- **Managing People:** The essence of an organization is its workforce—employees must effectively work together to produce positive outcomes. This course provides an overview of organizational behavior and the various methods of managing individuals, teams, and organizations to elicit consistent, high levels of performance.

- **Conflict Resolution:** Leaders often spend a significant amount of their time dealing with conflict and its consequences. People deal with conflict in various ways, but the most effective conflict management tool, at least potentially, is to negotiate. This course will enhance your ability to negotiate deals, settle disputes, and make team-based decisions.

- **Change & Transformation:** Change in organizations is unavoidable. We can allow it to happen to us, or we can embrace it. Successful organizations make innovation and evaluation a consistent part of their culture. Because change is a process, it can be managed through effective leadership. This course provides insights into change management theory and application.

VINE TO WINE: THE FUNDAMENTALS
Complete an in-depth study of wine focused on winemaking practices, grapes, and regions. Receive training in wine tasting, wine service, and food and wine pairing. Further broaden your wine education via industry discussions, guest speakers, and field trips. Vine to Wine covers general winemaking, including ongoing discussions of how environmental conditions and actions taken by winemakers influence the finished wine. Each week, break down and examine a different major wine making region by looking at conditions like climate and soil. Taste over 10 wines per session to learn about varietal and regional standards while learning to examine wine in blind tasting format. Receive instruction and practice on wine service for both still and sparkling wines. Study food and wine pairing theory, then bring it to life by choosing your own wine and cheese pairings. Daily discussions about what is currently trending in the wine industry will open your eyes to aspects of the industry you never knew existed. Professionals working in the wine industry will be brought in to discuss their point of view of what they see in the market. Field trips are used to introduce career opportunities in the world of wine. A three-part final exam tests student knowledge in written, essay, and blind tasting formats. The Vine to Wine course is open to anyone. Whether you are a wine professional looking to hone your skills, considering a career change, or a wine enthusiast who just wants to learn more about something you love, this class is for you. Although extremely challenging, the course starts without any prerequisite wine knowledge needed.

We will then move into varietal study, learning about what makes grapes different from each other. Finish the first day with tasting theory and wine evaluation. Day 2 jumps right into additional discussion on winemaking techniques. Spend most of the day covering major wine regions of the world; discover what makes products from each region unique. Continue with tasting theory throughout the day. All materials will be provided in class.

Stop agonizing over problem solving and decision-making. When faced with a complex problem many people take one of two divergent approaches. Taking a structured approach can give you confidence to weigh all contributing factors and decisively forge ahead. Leaders must recognize situations where an immediate decision is called for, such as an instance of workplace violence, but also must know that in most cases there is time to understand all of the possible factors and make a well thought out decision. PARALEGAL CERTIFICATE PROGRAM
UNLV’s paralegal program comprises two semester-long courses with a total of 90 hours of classroom instruction: Practicum and the Law. For Practicum, we have identified the skills most in demand in a Nevada paralegal: effective legal research, persuasive writing, law practice management, document formatting and structure, court filing, calendaring deadlines, and ethical representation. Each paralegal will learn these skills and put them into practice through representation of two hypothetical clients: a plaintiff and a defendant. The Law course covers those substantive aspects a paralegal is most likely to encounter in their practice: Torts, Contracts, Criminal Law, Criminal Procedure, Civil Procedure, Family Law, and Estate Planning and Probate. After finishing this course created specifically for UNLV students, paralegal graduates will have the knowledge, skills, and confidence they’ll need to enter the paralegal profession. The program tuition includes the practicum textbooks and access to LexisNexis and Westlaw. Students should estimate $400 for additional required textbooks that are not included in the registration fee. Required Textbook(s): ISBN: 9781133691853, ISBN: 9781454855552, ISBN: 9781717901606

UNLV CEUs are calculated based on this nationally recognized formula; however, other organizations such as licensing boards may convert CEUs into other measurements such as Professional Development Hours (PDH) or Continuing Education Credits (CEC). Students should consult with their specific licensing board or industry regulating body to confirm how UNLV CEUs can meet their training requirements.

For more information on CEUs, visit: www.iacet.org/ standards/continuing-education-unit-ceu/about-the-ceu
